DIRECTORS' REPORT

Your directors submit the financial report of the Company for the half-year ended 31 December 2012. In order to comply with the provisions of the Corporations Act 2001, the directors report as follows:

Directors

The names of directors who held office during or since the end of the interim period and until the date of this report are noted below. Directors were in office for the entire period unless otherwise stated.

| Ashok Parekh | Chairman |
|-------------------------|------------------------|
| Dennis Clark | Managing Director |
| Darren Russell-Croucher | Executive Director |
| Morrie Goodz | Non-Executive Director |
| Jeffrey Williams | Non-Executive Director |
| Glenn Wardle | Non-Executive Director |

The Company's activities during the first half of the 2013 financial year were focussed on progressing the underground development to the 1400 Stockwork Zone. The decline development is scheduled to reach the 1400 Stockwork Zone in June 2013.

Highlights achieved during the half year were:

Decline Development

- The decline was extended 478 metres and, as at the end of 2012, was at the 1545 level.
- Lateral development was completed for 134 metres.
- The mine dewatering system was upgraded and is working efficiently. The Company purchased two new mono-pumps capable of a 300.0m vertical lift.
- The mine ventilation system was upgraded and is working effectively.

Maiden JORC inferred Mineral Resource

- The Company announced a maiden Mineral Resource estimate for the 1400 Stockwork Zone at its wholly owned A1 Gold Mine. Reported in accordance with The JORC Code (2004), the resource is classified as an Inferred Mineral Resource and totals 750,000 tonnes at 5.5 g/t gold for 133,000 oz contained gold (reported at a 3 g/t gold cut-off).
- Subsequent to the end of the period, the Company announced a significant upgrade to the A1 Gold Mine Resource estimates (refer to the Company's ASX announcements dated 11 February 2013 & 18 February 2013.

First Gold Production

• The Company had its first gold pour of 2030g fine gold from the 1650 bulk sample. The initial bulk sample delivered to Octagonal Resources Limited's (ASX:ORS) Maldon Plant for processing demonstrated that the ore from the A1 Gold Mine requires a gravity circuit. The Company is now implementing the installation of a gravity circuit to improve treatment and recoveries.

Metallurgical Testwork

- Independent metallurgy analyst Gekko Systems Pty Ltd completed analysing the metallurgy of test
 material from the A1 Gold Mine. The purpose of the test work was to determine the amenability of the
 samples sent from material mined from the A1 Gold Mine to gravity recovery, followed by leaching and
 flotation of the gravity tails samples.
- Three samples were tested by Gekko. Sample 1 included a head grade of 3.03 g/t Au, Sample 2 included 3.72 g/t Au and Sample 3 included 4.60 g/t Au. The three samples tested gave combined recoveries of 93% for sample 1, 97% for sample 2 and 98% for sample 3.
- Gekko concluded that the ore is well suited for a combined gravity and flotation recovery circuit to maximize overall gold recovery. Due to the positive results received from Gekko, the Company is satisfied to proceed with the installation of a gravity circuit to process the ore from the A1 Gold Mine.

Exploration Drilling

- The Company commenced a program of underground diamond drilling utilising a new compact drilling rig owned by the Company. The drill program is aimed at identifying further targets, which could be developed and economically extracted as the decline is developed to the 1400 Stockworks.
- The current mine definition drill program is concentrated on the area immediately to the north of the decline development, (5848800N, 429500E).
- A surface drilling program commenced on the A1 Dyke Northern Extension.

- The first two holes, A1SDH001 and A1SDH002, intersected the dyke corridor at 30.0m of down-hole width, (expected true width of upon logging to be >25.0m).
- Geological modelling and a recent study identified a possible repetition of the main central dyke bulge to the south of the historical workings.
- A surface drilling program was designed to commence testing this area in January 2013, with an initial program of 1200 metres of diamond drilling. The drill site and access earthworks have been completed, with the drilling contractor due to mobilise to site in February 2013.

Competent Persons Statements

Information in this document which relates to Mineral Resources is based on information compiled by Dr Simon Dominy and Ms Cindy-Lee Cox, both full-time employees of Snowden Mining Industry Consultants Pty Ltd. Dr Dominy is a Fellow of the Australasian Institute of Mining and Metallurgy (FAusIMM) and Ms Cox a Member of the Australasian Institute of Mining and Metallurgy (MAusIMM). Both Dr Dominy and Ms Cox are AusIMM Chartered Professional Geologists. Both Dr Dominy and Ms Cox have the relevant experience to act as a Competent Person, as defined in the 2004 edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (the JORC Code)'. Dr Dominy and Ms Cox have given and have not withdrawn prior to lodgement, their written consent to be named in any Announcement as the person responsible for the Mineral Resources statements and to the inclusion of these statements in the form and context in which they appear.

The information in this report that relates to Exploration is based on information compiled by Mr Morrie Goodz who is a Fellow of The Australasian Institute of Mining and Metallurgy. Mr Goodz is a Director of A1 Consolidated Gold Limited, and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to qualify as a Competent Person as defined in the 2004 Edition of the JORC Code. Mr Goodz has given his consent to the inclusion in the report of the matters based on this information in the form and context in which it appears.

Information that relates to exploration and production targets refers to targets that are conceptual in nature, where there has been insufficient exploration to define a Mineral Resource and it is uncertain if further exploration will result in the determination of a Mineral Resource.

Auditor's Independence Declaration

Section 307C of the Corporations Act 2001 requires our auditors, HLB Mann Judd, to provide the directors of the company with an Independence Declaration in relation to the review of the interim financial report. This Independence Declaration is set out on page 3 and forms part of this directors' report for the half-year ended 31 December 2012.

This report is signed in accordance with a resolution of the Board of Directors made pursuant to s.306(3) of the Corporations Act 2001.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These interim financial statements are general purpose financial statements prepared in accordance with the requirements of the Corporations Act 2001, applicable accounting standards including AASB 134 'Interim Financial Reporting', Accounting Interpretations and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB'). Compliance with AASB 134 ensures compliance with IAS 34 'Interim Financial Reporting'.

This condensed half-year report does not include full disclosures of the type normally included in an annual financial report. Therefore, it cannot be expected to provide as full an understanding of the financial performance, financial position and cash flows of the Company as in the full financial report.

It is recommended that this financial report be read in conjunction with the annual financial report for the year ended 30 June 2012 and any public announcements made by A1 Consolidated Gold Limited and during the half-year in accordance with continuous disclosure requirements arising under the Corporations Act 2001 and the ASX Listing Rules.

Basis of preparation

The interim report has been prepared on a historical cost basis. Cost is based on the fair value of the consideration given in exchange for assets. The Company is domiciled in Australia and all amounts are presented in Australian dollars, unless otherwise noted.

For the purpose of preparing the interim report, the half-year has been treated as a discrete reporting period.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

Adoption of new and revised Accounting Standards

In the half-year ended 31 December 2012, the directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company's operations and effective for annual reporting periods beginning on or after 1 July 2012.

It has been determined by the directors that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Company and, therefore, no change is necessary to Company accounting policies.

The directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the half-year ended 31 December 2012. As a result of this review the directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Company and, therefore, no change is necessary to Company accounting policies.

Significant accounting judgments and key estimates

The preparation of interim financial reports requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim report, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial report for the year ended 30 June 2012.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2012

NOTE 6: SEGMENT REPORTING

AASB 8 "Operating Segments" requires operating segments to be identified on the basis of internal report about components of the Company that are reviewed by the chief operating decision maker (considered to be the Board of Directors) in order to allocate resources to the segment and assess its performance. The chief operating decision maker of the Company reviews internal reports prepared as financial statements and strategic decisions of the Company are determined upon analysis of these internal reports. During the period, the Company operated predominantly in one segment being the mineral exploration sector in Victoria. Accordingly, under the "management approach", only one operating segment has been identified and no further disclosure is required in the notes to the financial statements.

NOTE 7: CONTINGENT LIABILITIES

There has been no change in contingent liabilities since the last annual reporting date.

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of A1 Consolidated Gold Limited

Report on the Condensed Half-Year Financial Report

We have reviewed the accompanying half-year financial report of A1 Consolidated Gold Limited ("the company"), which comprises the condensed statement of financial position as at 31 December 2012, the condensed statement of comprehensive income, condensed statement of changes in equity and condensed statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Directors' responsibility for the half-year financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

MIUO BSI IBUOSIBQ IO_

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the company's financial position as at 31 December 2012 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of the company, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
